EDUCATION

Indian Institute of Management (IIM), Mumbai

Master of Business Administration (MBA)

Mumbai, India

Jun 2026 – Present

Institute of Chemical Technology (ICT), Mumbai

Bachelor of Technology (B.Tech) in Chemical Engineering | CGPA: 6.60/10.00

Mumbai, India

2021 – 2025

- Relevant Coursework: Process Economics, Systems Optimization, Numerical Methods, Industrial Management, Transport Phenomena.
- Higher Secondary Certificate: 85.67% | Secondary School Certificate: 85.20%.

PROFESSIONAL EXPERIENCE

Tax & Audit Assistant

Jun 2025 – May 2026

Office of Santosh S. Bakshetti, Tax Consultant & Auditor

Mumbai, Maharashtra, India

- Led statutory audits and financial reconciliation for 10+ cooperative housing societies, identifying balance discrepancies and ensuring 100% adherence to regulatory reporting standards.
- Managed end-to-end bookkeeping and accounts reconciliation for a manufacturing client generating INR 50 Cr in annual revenue, reducing audit preparation turnaround by 30%.
- Streamlined income tax documentation and filing workflows for 15+ high-net-worth individual clients, redesigning data collection protocols to eliminate late-filing compliance risks.

Process Engineering Intern

Jun 2024 – Aug 2024

Epigral Ltd. (Formerly Meghmani Finechem)

Dahej, Gujarat, India

- Performed root cause analysis on plant operational data to diagnose catalyst deactivation; designed a predictive monitoring framework that improved asset utilization by 12%.
- Investigated critical burner failures using Process Safety Management (PSM) protocols and proposed corrective actions that reduced potential unplanned downtime by 20%.
- Executed a systematic moisture reduction study across purification units, identifying and eliminating process bottlenecks to improve production throughput by 8%.

PROJECTS

Ambrettolide Manufacturing Plant Design (25 TPA) | Capstone Project

Sep 2024 – Apr 2025

- Developed CAPEX/OPEX financial models and ROI projections to evaluate the techno-economic viability of a 25 TPA specialty chemicals facility.
- Compared three synthesis pathways on cost, yield, and scalability; optimized equipment sizing and material planning to maximize operational efficiency.
- Designed process flow diagrams and led a Hazard and Operability (HAZOP) study, identifying and mitigating 15 critical risk scenarios across the plant.

Climate Change Impact on Water Quality | Research Seminar

Nov 2024 – Jan 2025

- Analyzed climate-driven water quality degradation and benchmarked parameters against Central and State Pollution Control Board standards.
- Evaluated advanced purification technologies for industrial deployment, assessing scalability, cost-effectiveness, and regulatory compliance.

LEADERSHIP & ACHIEVEMENTS

- Secured 2nd Place in a national business plan competition (50+ participating teams); built a market feasibility study with financial projections for a proposed consumer venture.
- Ranked in the top 5% nationally across industrial certification programs in environmental management, petroleum refining, and Industrial IoT.
- Served as Creative Head for *Bombay Technologist*, ICT's official technical magazine; led a cross-functional editorial team to deliver on-schedule publication.

SKILLS & COMPETENCIES

Business & Strategy: Financial Modeling, Business Analysis, Process Optimization, Supply Chain Analytics, Market Research, Project Management, Stakeholder Management, Corporate Compliance, Risk Assessment.

Data & Analytics: SQL (MySQL, PostgreSQL, Query Optimization), Python (Pandas, NumPy, Scikit-Learn, Statsmodels, Seaborn), Advanced MS Excel (VBA, Power Query, Solver), Power BI (DAX), Data Visualization, Statistical Analysis.

Technology & AI Tools: Cloud Infrastructure (GKE, Kubernetes), Machine Learning (XGBoost, cuML), AI Coding Assistants (Claude Code, Google Antigravity), Git/GitHub, Process Automation, AutoCAD.
